

# Senior Information Services Specialist

## Self-Assessment Form

Printed Name: \_\_\_\_\_

I certify that the information provided below is true and accurate.

Signature: \_\_\_\_\_

Date: \_\_\_\_\_

Note applicable coursework leading to an Associate of Arts or Associate of Science degree in Computer Science, Computer Information Technology, Computer Information Management or related fields.

|                              |  |
|------------------------------|--|
| List applicable course work: |  |
|                              |  |
|                              |  |

Note equivalent combination of training, certification, and experience in lieu of formal coursework.

|                                   |  |
|-----------------------------------|--|
| If claiming equivalency, explain: |  |
|                                   |  |
|                                   |  |

On a scale of 0 to 10 (10 highest), rate your experience/expertise in the following areas. As applicable, note the years of experience, and largest size of resources managed.

| Resource   | Years of experience | Qty | Rating (0-10) |
|--|---------------------|-----|---------------|
| 1. LAN/WAN topologies                            |                     |     |               |
| 2. Network cabling – inside and outside premises |                     |     |               |
| 3. Cisco network switches                        |                     |     |               |
| 4. Cisco network routers                         |                     |     |               |
| 5. Cisco network firewalls                       |                     |     |               |
| 6. Cisco 8.02.11a/b/g/n Wi-Fi services           |                     |     |               |
| 7. DNS   |                     |     |               |
| 8. Protocol analyzers                            |                     |     |               |
| 9. Blade servers (non-IBM)                       |                     |     |               |
| 10. IBM Bladecenter servers                      |                     |     |               |
| 11. Wintel servers (non-IBM)                     |                     |     |               |
| 12. IBM xSeries servers                          |                     |     |               |
| 13. Microsoft Server 2003 R2                     |                     |     |               |
| 14. Microsoft Server 2008                        |                     |     |               |

Note: Failure to complete and submit this form with you application will result in your disqualification from further consideration for this position.
